ASTHMA POLICY

POLICY STATEMENT:

Woolooware Outside School Hours Care aims to provide an environment which is safe and healthy where children with asthma can participate equally in all aspects of the programs and experiences offered at the service. We will ensure all educators are equipped with adequate knowledge and training of asthma management to enable them to respond immediately and appropriately to an asthma emergency.

CONSIDERATIONS:

- Education and Care Services National Regulations 2011
- National Quality Standard
- Children (Education and Care Services National Law Application) Act 2010
- Australian Children's Education and Care Quality Authority (ACECQA)
- United Nations Rights of the Child (Article 24)
- Asthma Australia - <http://asthmaaustralia.org.au/>

PROCEDURES:

At least one educator, who has undertaken approved emergency asthma management training (reg. 136), will be present at all times that children are being educated and cared for at the centre.

Parents will be required to inform the Centre of any child diagnosed by a medical practitioner as being asthmatic, and the severity, at the time of enrolment. This information is recorded on the enrolment form.

Parents will be required to provide a Medical Condition Risk Minimisation Plan as well as a copy of a ASCIA Anaphylaxis Action plan, as authorised by a medical practitioner (Regulation 90). These action plans will be displayed in the centre. All educators will be made aware of these.

Any medication required such as, inhalers and spacers must be supplied by the parents to the centre, clearly marked with the child's name and any additional relevant information must be kept with the medication at all times, such as a management plan and risk minimisation form.

An emergency reliever inhaler and spacer will be kept in the First Aid Kit. Educators will be responsible for replacing the inhaler when it has expired.

If the emergency spacer is used by a child during an asthma attack, the spacer will be disposed of after use, and a replacement will be purchased.

All medication must be stored in an area easily accessible to educators but inaccessible to children and away from any direct heat source.

All educators, including relief educators and volunteers, will be informed of the current enrolled children who have been diagnosed as being asthmatic upon employment.

Educators will be responsible for familiarising themselves with the children diagnosed.

In the event of an asthma attack occurring where a child has been diagnosed as being asthmatic, educators will follow the instructions on the child's action plan.

In the event of an asthma attack occurring where a child has not received an asthma diagnosis and has no prior history of asthma, educators will:

- Sit the child upright and reassure them. Child must not be left alone.
- Administer 4 puffs of the reliever inhaler (one puff at a time), preferably through a spacer device. Child should take 4 breaths with each puff of the inhaler.
- Wait 4 minutes
- Have another educator contact parent or guardian
- If there is little or no improvement repeat the above steps
- If there is still little or no improvement, contact ambulance services "000"

Continue the above steps until medical services arrive Medication may be administered to a child without an authorisation in case of an asthma emergency (Regulation 94). If medication is administered under this regulation, the approved provider or nominated supervisor of the education and care service must ensure that the following are notified as soon as practicable:

- a parent of the child
- Emergency services

Educators must ensure that all asthma medication administered is recorded in a medication record.

Parents/guardians of children diagnosed as being asthmatic must be provided with a copy of the Asthma Policy (Regulation 91).

Any Educators who have been diagnosed as being asthmatic by a medical practitioner must advise the Centre Director. This will be recorded on their emergency details form and any additional information recorded on file.

DATE ENDORSED: April 26, 2021

DATE FOR REVIEW AND EVALUATION: April 26, 2023
